

Let us turn your needs into mobile robotic solutions

The ERA-5/1 is a new product born to face the need of embedding high performance arms on mobile robots.

### Specification

- 5DOF with additional parallelism
- 14kg weight, 1kg payload
- 90°/sec with no backlash
- 24V supply, RS232+CAN interface
- Available with simple 1DOF gripper

## ERA-5/1

### Configuration

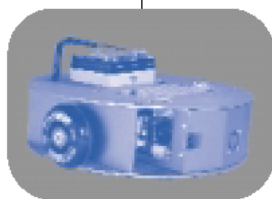

- D0: rotation along vertical axis
- D1: rotation along horizontal axis
- D2: horizontal rotation perpendicular to D1
- D3: rotation parallel to D2
- D4: rotation along horizontal axis

D4 is kept horizontal with an additional parallel mechanism.
